Data Sheet

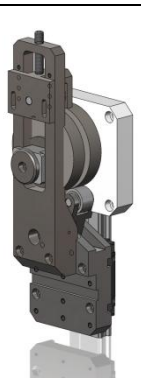

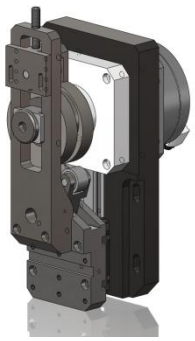

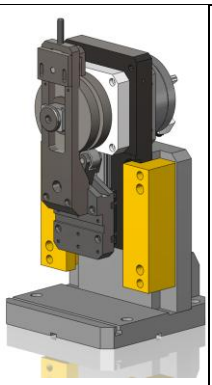

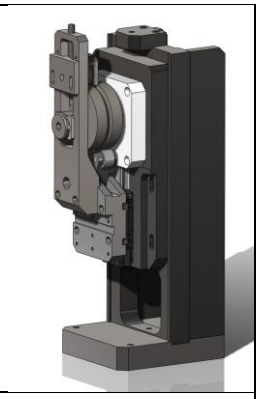

AX-10

Automation Component

Technical Data:

Forming force (cam disc & drive dependent):	10kN
Stroke (dependent on cam):	max. 20mm
drive	Servomotor
Number of strokes at 10mm stroke max.	600/min
Price without drive & central lubrication	Price on request

Variants:

				
	Basic module	Ground modul	C-frame	Special substructure
Table size:	-without table -without base plate	-without table (Base plate: w=130mm, h=253mm)	Width 190mm x Depth 72mm (108mm)	Width 140mm x depth 72mm
Tool height in UT: (depending on the type of fastening)			130mm to 160mm	144mm to 154mm
Weight (approx.):		17kg	33kg	45kg

Options:

- Drives with servo motor from various manufacturers
- Cam disks with different strokes and motion profiles
- Press force monitoring
