Data Sheet

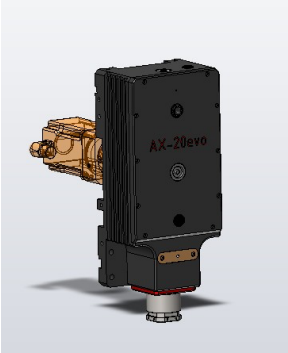

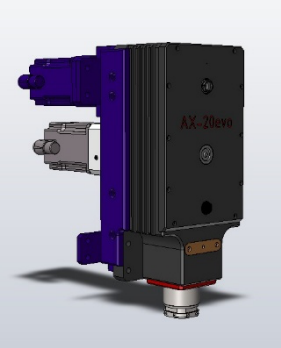

AX-20evo

Automation Component

Technical Data:

Forming force (cam disc & drive dependent):	20 kN
Stroke (dependent on cam):	max. 25mm
Drive	Servomotor
Number of strokes at 10mm stroke max.	500/min

Variants:

	1	2	3
			
	Single	Incl. delivery axis	C-frame with side wall
Tool installation space:			Width 230mm depth 320mm
Tool height (depending on the type of fastening)			max.150mm
Weight:	Approx.27,5kg	Approx.50kg	Approx.80kg

Options:

- Drive with servo motor from various manufacturers
- Cam disks with different strokes and motion profiles
- Press force monitoring
- Independent control system in a small control cabinet
- …
