Data Sheet

# High-Performance Automatic Punching Maschine with AX-20evo

A complete punching machine, based on an AX-20evo, fully electric and movable, with a footprint the size a Euro pallet.

## Technical Data:

| | |
|---|---|
| Forming force (depending on cam disc and drive): | 20 kN |
| Base unit: | adjustable and lockable |
| Tool mounting height: | max. 150mm |
| Tool mounting space: | Width:230mm<br>Depth:320mm |
| Stroke (cam-dependent): | max. 25mm |
| Dimensions (without unwinder) WxDxH | 900mmx700mmx1900mm |
| Drive | Servo motor |
| Stroke rate at 10mm stroke, max.: | 500/min |
| Lubrication: | Oil bath |
| Control system: | Beckhoff |
| Price includes:<br>- AX-20evo<br>- Base frame<br>- MX-Beckhoff control system<br>- 8x I/O ports | Upon request |

Optional:

| |
|---|
| Feed mechanism, e.g., EX-50 roller feed with servo-controlled intermediate air gap |
| Pulsation function |
| Unwinding/rewinding reel |
