Datasheet

Stamping oil dosage
Belt oiler

Technical data:

Operating pressure max.	16bar
Flow rate max.	1,1 Liter/h
Filling quantity	1000ml
Price	Price on request

Features:
• Diaphragm metering pump, almost wear-free
• PTFE membrane and PTFE coated seals
• excellent endurance running properties
• Impulse step-up and step-down ratio, therefore can be used for existing encoder systems
• Precisely metered amount of lubricant
• Can be combined with EX-50 and EX-63
• Can be used as a standalone unit
• suitable for retrofitting existing systems
• Quick-change lubricant container (standard bottle)
• Operating, warning and fault display

Options:
• Eloxal colors according to customer requirements (red, black, silver; other colors
- after consultation)
- Different mounting options possible
